- WEBSTORM | INTELLIJ IDEA

ABOUT ME

Driven and skilled full stack engineer with 6+ months of hands-on experience in developing robust applications using both frontend and backend technologies. Proficient in utilizing the power of C# and MERN stack, along with their associated frameworks, to create efficient and scalable solutions. Passionate about continuous learning and constantly seeking opportunities to enhance expertise in React Native and Solidity, with the goal of expanding capabilities and contributing to cutting-edge projects at Atmospheric Solutions.

PROFFESIONAL EXPERIENCE

- **Software Engineer Intern | Antler IT Solutions**
  Sep 2022 – March 2023
  Extensively worked with React, C#, Microsoft SQL and related technologies.

- **Trainee Software Engineer | Antler IT Solutions**
  March 2022 – Present
  Extensively working with React, C#, Microsoft SQL

EDUCATION

BSc (Hons) in Information Technology - Software Engineering
June 2020 – Present

G.C.E Ordinary Level Certificate
Dec 2016
5As, 1B and 3C Passes.

G.C.E Adavnced Level Certificate
Aug 2019
Accounting - A, ICT – C, Economics - C.

CERTIFICATIONS AND COURSES

- **Certificate Course in English – British Council**
  Completed in 2019

- **Certificate Course in Trainee Full stack Developer – University of Moratuwa**
  Reading

PERSONAL PROJECTS

- **CARE FOR YOU LABORATORIES**
  3rd Year 2nd Semester
  We implemented a web-based laboratory management system named "Care for You" for this project.
  Technologies Used: MongoDB, Express, Nodejs, React

- **E-TICKETING SYSTEM**
  3rd Year 2nd Semester
  Implemented a web application and a mobile application for transportation e-ticketing system.
  Technologies Used: MongoDB, Express, Nodejs, React, React-Native

- **HEALING LAND**
  3rd Year 2nd Semester
  This is a project which basically focuses on UI designs. Implemented a mobile application named "Healing Land" for this project.
  Technologies Used: Java

- **BRAINTECH INSTITUTE**
  2nd Year 2nd Semester
  We implemented an Educational Institute Management System for an institute named "BrainTech Institute".
  Technologies Used: MongoDB, Express, Nodejs, React

- **Mobile Application Development**
  2nd Year 2nd Semester
  We implemented an online fashion store mobile application named "Fashion Hub" for this Project.
  Technologies Used: Java
